

# How do I call **non**-Integrated phone numbers?

## Call screens

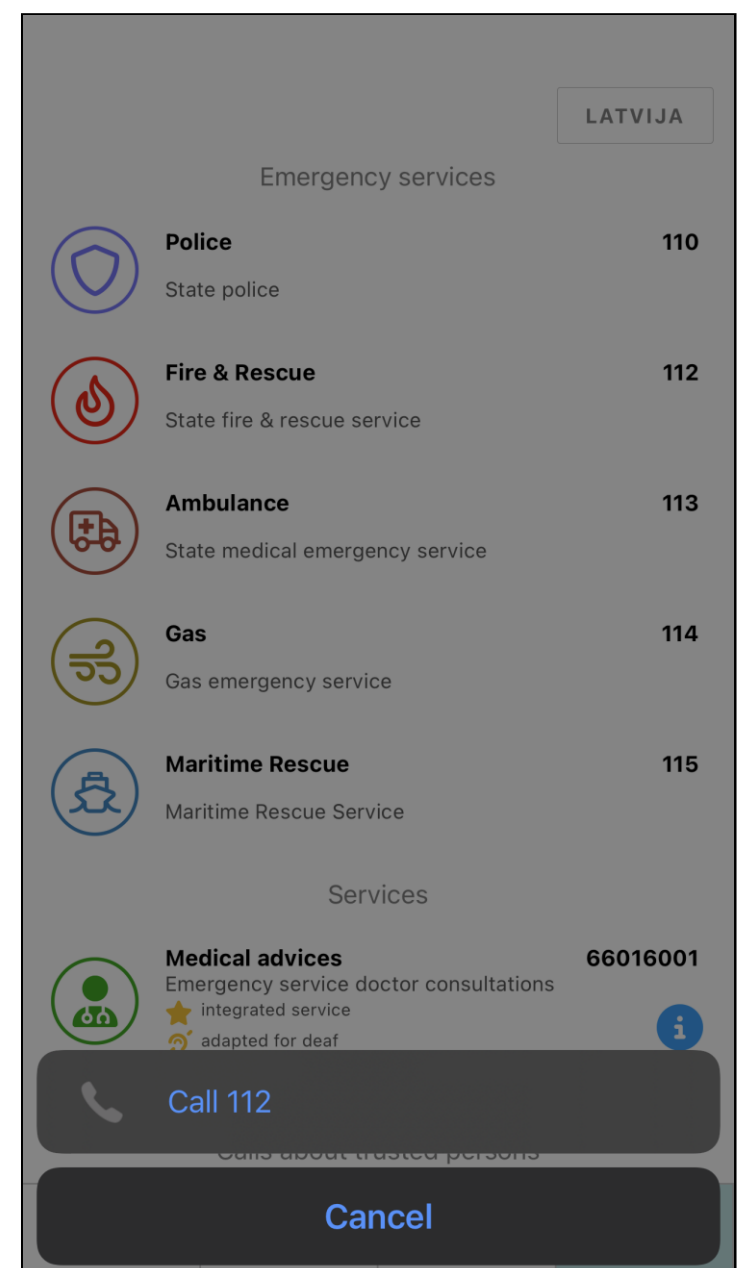

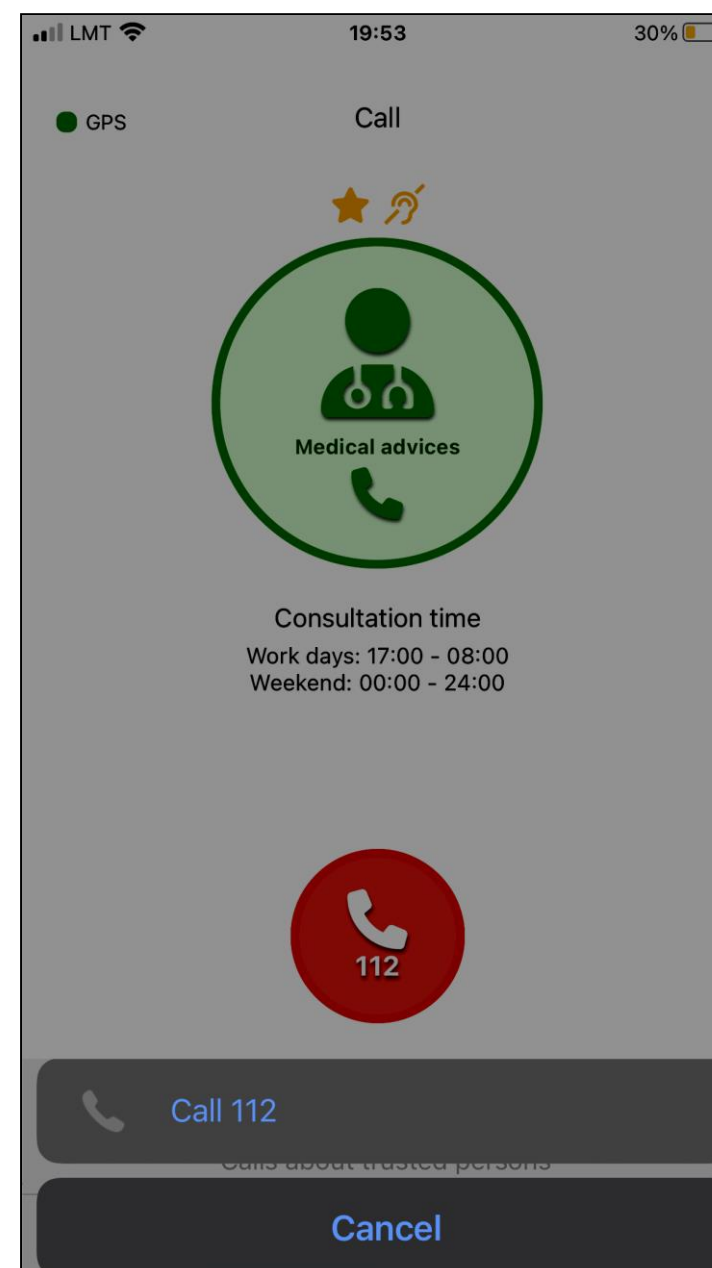

- The app has two call screens:

1. Main screen "Home".
2. Full call list "Numbers".

## Making calls

- Calls can be made both from the Main screen "Home" and from the full call list "Numbers" screen.
- The integrated number is called as a normal voice call.
- All notifications to Trusted persons about the fact of the call, the caller's location (GPS on the map) and chat, etc. - work only between selected Trusted persons.
